How to view the Demo:

- Your Proteus is pre-configured to display a demo on a HD (1920 x 1080) video monitor.
- To view the demo, set up Proteus as shown in the diagram below
- Always ensure *microSD card is fully inserted* and *CFG switch (in rear panel) is in the UP position*
- Apply power to Proteus

Optional
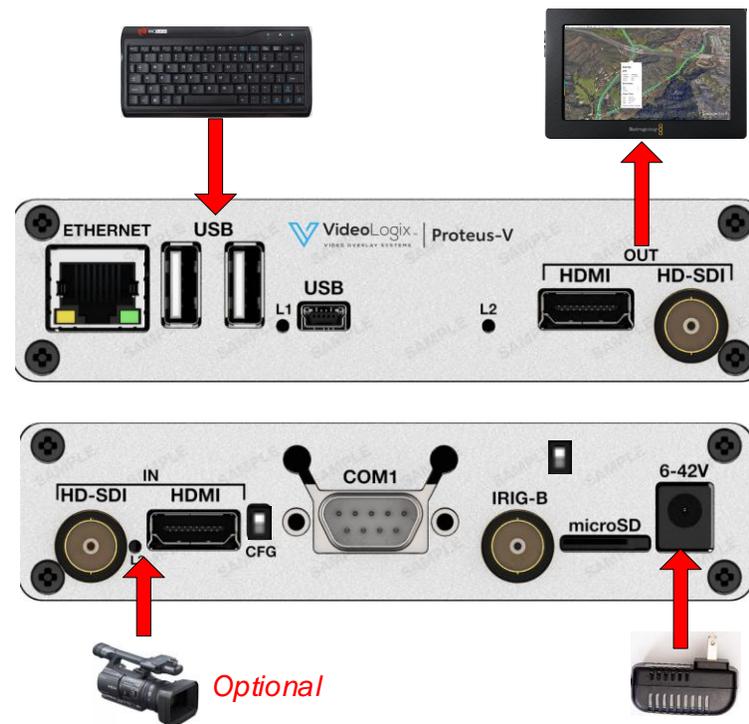

How to disable Demo:

- Press *F9* to display menu. Go to *Config : Load* and press Enter.   Select *Blank Screen* and press Enter.
- You can always restore the demo (or any other configuration) by going to *Config : Load* and selecting the desire file i.e. *ROV*

Documentations:

1. Latest documentations can be download from our website: MicroSD FOLDERS – DOWNLOAD
2. When you unzip the file, the content should appear as shown below:

Name

- Configs
- Documents
- Firmware
- Fonts
- Images
- KML
- Script
- Read-me
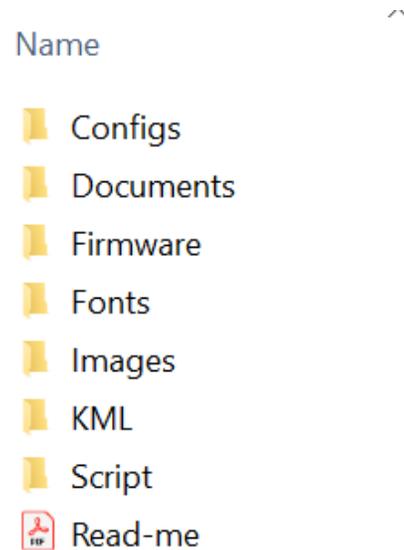

3. Of course, your unit is shipped with a microSD that includes above folders.
4. To check firmware version, press Alt-H and a window should appear on your monitor.

The **User Manual** along with other documents reside in the *Documents folder*.

Quick Tutorial:

Disable the demo and follow the "Quick Tutorial" in the **User Manual**
